

Animal Including Humans: Year 2

Lesson 1	To start our unit, you will look at different animals and their offspring. Can you match the animals to their offspring? Do all animals look like their offspring?	
Lesson 2	In this lesson, you will identify how animals and humans grow. You will look at the life cycles of animals and humans. How do animals and humans change as they grow?	 
Lesson 3	 In today's lesson, we are going to look at what humans and animals need to survive. What are the basic needs for humans and animals?	
Lesson 4	Today we are going to look at how to stay healthy! What foods will keep us healthy? Are some foods better for us than others? 	
Lesson 5	In today's session, we will think of other ways to stay healthy. Do we need to exercise? We will do some exercises and see what happens when we exercise.	
Lesson 6	In our final unit, we will look at keeping clean. Why is keeping clean important? When should we wash our hands? What would happen if we didn't keep ourselves clean?
